HOMESCHOOL PROGRAMS – COVID GUIDELINES

We will follow all guidelines/mandates from the state/CDC/local BOH – as these change so may our policies. There are sanitizer stations throughout all buildings. All staff will be temperature checked daily at shift start and complete a health survey. All buildings will be fogged every night.

We will require that all participants in school programs bring a completed health survey each week and be temperature checked. If your temperature exceeds the recommended limit you will be unable to participate in the program for the day or remain on the property.

Masks that cover your nose and mouth are mandatory for everybody over age 2 – NO EXCEPTIONS – except when you are seated at a table actively eating/drinking. Having a drink you are sipping or a bag of snacks you are grazing does not count.

You must maintain social distancing – currently 6'. This means there cannot be a crowd of observers at the bottom of the pony/outside the ski shop or people congregating in the lodge.

There will be reduced occupancy in all buildings. It will take longer to get through the rental shop on program days. You will not be able to claim a table in the lodge for your family since lodge space also will be limited.

Our goal is to limit class size to 6 students. We have always in the past opened enrollment to adults. That may not be possible this year for the lesson program.

Instructors will be able to ride the lift with their students. However, we cannot ask random adults/older kids to ride as helpers for students who need it. Nor can we load random pairings of kids – one person per chair except for family groups.

Everybody must be bathroom independent, able to get dressed and undressed without help.

For more COVID information, check out our COVID statement and COVID Responsibility Code.

A big part of keeping everybody safe will fall on you. We will do everything we can do to have procedures in place to keep our guests and staff safe – but we can't do it alone. You may or may not agree with COVID restrictions and that is your right.

However, when you are on Ridge property we ask that you respect our policies and guidelines. Be patient, be kind while we navigate a different world and we can all enjoy another ski season, albeit a bit different than in the past.

Our mantra for this year –

DON'T BE THE REASON TO END OUR SEASON

YOUR RESPONSIBILITY CODE

Skiing and snowboarding can be enjoyed in many ways. At areas, you may see people using alpine skis, snowboards, telemark skis, cross country skis, and other specialized equipment, such as that used by the disabled. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce. Observe the code listed below, and share with other skiers and riders the responsibility for a great skiing experience.

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Know the code. It's your responsibility.

Note* This is a partial list. Be safety conscious.
